

bulletin'

Team 19

Identification and Classification	Test Case 01 - Valid Sign Up System: bulletin' Module: Login Page Severity: Critical
Instructions	<ul style="list-style-type: none">• User creates an account.
Expected Result	<ul style="list-style-type: none">• Will redirect back to login screen, where they can use that new account to login.

Identification and Classification	Test Case 02 - Invalid Email Sign Up System: bulletin' Module: Login Page Severity: Critical
Instructions	<ul style="list-style-type: none">• User creates an account with an invalid email (not @purdue.edu)
Expected Result	<ul style="list-style-type: none">• User will be notified that it was an invalid action, will be directed to try again.

Identification and Classification	Test Case 03 - Poor Password Sign Up System: bulletin' Module: Login Page Severity: Workaround
--	---

Instructions	<ul style="list-style-type: none"> User creates an account with a password that is too short or too long.
Expected Result	<ul style="list-style-type: none"> User will be notified that it was an invalid action, will be directed to try again.

Identification and Classification	Test Case 04 - Valid Sign In System: bulletin' Module: Login Page Severity: Critical
Instructions	<ul style="list-style-type: none"> User Signs in with proper credentials.
Expected Result	<ul style="list-style-type: none"> Will direct user to the homepage.

Identification and Classification	Test Case 05 - Invalid Sign In System: bulletin' Module: Login Page Severity: Critical
Instructions	<ul style="list-style-type: none"> User signs in with improper credentials.
Expected Result	<ul style="list-style-type: none"> User will be notified that it was an invalid login, will be directed to try again.

Identification and Classification	Test Case 06 - Blank Sign In System: bulletin' Module: Login Page Severity: Workaround
Instructions	<ul style="list-style-type: none"> User tries to sign in without entering any credentials.
Expected Result	<ul style="list-style-type: none"> User will be notified that it was an invalid login, will be directed to try again.

Identification and Classification	Test Case 07 - Create Flyer System: bulletin' Module: Create Flyer Severity: Critical
Instructions	<ul style="list-style-type: none"> User creates a flyer with proper image file and metadata.
Expected Result	<ul style="list-style-type: none"> The flyer will become visible to the public on the homepage.

Identification and Classification	Test Case 08 - Create Improper Flyer System: bulletin' Module: Create Flyer Severity: Workaround
Instructions	<ul style="list-style-type: none"> User creates Flyer without an image file or an improper image file.
Expected Result	<ul style="list-style-type: none"> User will be notified that it was an invalid action, will be directed to try again.

Identification and Classification	Test Case 09 - Create Flyer with Date System: bulletin' Module: Create Flyer Severity: Critical
Instructions	<ul style="list-style-type: none"> User creates a Flyer with proper metadata: including date.
Expected Result	<ul style="list-style-type: none"> Flyer metadata will become public, so that the flyer can be filtered by date.

Identification and Classification	Test Case 10 - View Flyer System: Bulletin' Module: Home Page Severity: Critical
--	---

Instructions	<ul style="list-style-type: none"> • User log into their account • User selects a flyer that interests them
Expected Result	<ul style="list-style-type: none"> • The selected flyer is loaded into a viewing page. • The user can take a look at an enlarged image with a more info option.

Identification and Classification	Test Case 11 - Return From Viewing System: Bulletin' Module: Home Page Severity: Critical
Instructions	<ul style="list-style-type: none"> • After selecting a flyer to view, the user clicks a back button.
Expected Result	<ul style="list-style-type: none"> • The page that the flyer was selected from returns to the display and is fully functional.

Identification and Classification	Test Case 12 - Admin Removes Flyer System: Bulletin' Module: Home Page Severity: Important
Instructions	<ul style="list-style-type: none"> • Admin logs into their account • Admin selects flyer to be removed • Admin confirms selection
Expected Result	<ul style="list-style-type: none"> • The page should reload showing the same content minus the removed flyer. • If the admin has opened the flyer for viewing, deletion returns them to the home page.

Identification and Classification	Test Case 13 - User Attempts to View Removed Flyer System: Bulletin' Module: Home Page Severity: Important
Instructions	<ul style="list-style-type: none"> • User and Admin log into their accounts and see the same flyer. • The Admin removes the flyer. • The User tries to view the removed flyer.
Expected Result	<ul style="list-style-type: none"> • The database should not be able to find the removed flyer anymore and return an error to the user.

Identification and Classification	Test Case 14 - Filter Flyer By Date System: Bulletin' Module: Home Page Severity: Important
Instructions	<ul style="list-style-type: none"> • User log into their account • User selects a day, week, or month filter • User confirms selection
Expected Result	<ul style="list-style-type: none"> • The page should reload only showing events occurring in the time frame selected by the user.

Identification and Classification	Test Case 15 - Leap Year System: Bulletin' Module: Home Page
--	---

	Severity: Workaround
Instructions	<ul style="list-style-type: none"> User selects view by month in February of a leap year.
Expected Result	<ul style="list-style-type: none"> The calendar correctly displays February 29th

Identification and Classification	Test Case 16 - Non Leap Year System: Bulletin' Module: Home Page Severity: Workaround
Instructions	<ul style="list-style-type: none"> User selects view by month in February of a non leap year.
Expected Result	<ul style="list-style-type: none"> The calendar does not display February 29th

Identification and Classification	Test Case 17 - Week Crossing New Year System: Bulletin' Module: Home Page Severity: Workaround
Instructions	<ul style="list-style-type: none"> User log into their account User selects a week filter in a week that starts in December and ends in January
Expected Result	<ul style="list-style-type: none"> The page should correctly connect the end of December and beginning of January into one seamless week representation.

Identification and Classification	Test Case 18 - Month Boundary Crossing System: Bulletin' Module: Calendar Filter Severity: Important
Instructions	<ul style="list-style-type: none"> • User selects filter by week sometime when the month ends in the middle of the week.
Expected Result	<ul style="list-style-type: none"> • The view should load the remaining days of the current month and attach the necessary days of the next month to complete the week.

Identification and Classification	Test Case 19 - Flag flyers System: Bulletin' Module: Home Page Severity: Important
Instructions	<ul style="list-style-type: none"> • Click on 'flag' button respective to inappropriate flyer
Expected Result	<ul style="list-style-type: none"> • Flag indicator should change its color to indicate its status

Identification and Classification	Test Case 20 - Flag flyers System: Bulletin' Module: Home Page Severity: Important
Instructions	<ul style="list-style-type: none"> • Click on 'flag' button on the inappropriate flyer
Expected Result	<ul style="list-style-type: none"> • Flag count should increase

Identification and Classification	Test Case 21 - Undo flagging flyers System: Bulletin' Module: Home Page Severity: Important
Instructions	<ul style="list-style-type: none"> Click on 'flag' button after user has already flagged it
Expected Result	<ul style="list-style-type: none"> Flag count should decrease

Identification and Classification	Test Case 22 - User flags their own flyer System: Bulletin' Module: Home Page Severity: Workaround
Instructions	<ul style="list-style-type: none"> User clicks 'flag' button on their own flyer
Expected Result	<ul style="list-style-type: none"> User is prompted to delete their own flyer

Identification and Classification	Test Case 23 - Ensure the user is able to click on the Facebook share icon System: Bulletin' Module: Home Page Severity: Workaround
Instructions	<ul style="list-style-type: none"> Click on the "facebook share" icon.
Expected Result	<ul style="list-style-type: none"> The system should redirect the user to the facebook login page

Identification and Classification	Test Case 24 - Ensure the user is able to share on Facebook System: Bulletin' Module: Home Page Severity: Workaround
Instructions	<ul style="list-style-type: none"> • Click on the "facebook share" icon • Successfully log in to Facebook
Expected Result	<ul style="list-style-type: none"> • The article should be on your Facebook wall.

Identification and Classification	Test Case 25 - Share broken link System: Bulletin' Module: Home Page Severity: Workaround
Instructions	<ul style="list-style-type: none"> • Click on the "facebook share" icon
Expected Result	<ul style="list-style-type: none"> • An alert box pops out stating that selected flyer has been deleted

Identification and Classification	Test Case 26 - Pop-up Response System: Bulletin' Module: Home Page Severity: Critical
Instructions	<ul style="list-style-type: none"> • Click on info icon on the quick look view of the flyer
Expected Result	<ul style="list-style-type: none"> • Pop Up of larger view of flyer with more detail of the event

Identification and Classification	Test Case 27 - Correct Detailed View of Clicked Flyer System: Bulletin' Module: Home Page Severity: Critical
Instructions	<ul style="list-style-type: none"> • User clicks on specific flyer to see more info
Expected Result	<ul style="list-style-type: none"> • Detailed view of clicked on poster should appear, not another poster

Identification and Classification	Test Case 28 - Filter to show only collected flyers System: Bulletin' Module: Home Page Severity: Workaround
Instructions	<ul style="list-style-type: none"> • User clicks 'collected' filter button
Expected Result	<ul style="list-style-type: none"> • Users page is updated to show only their collected flyers

Identification and Classification	Test Case 29 - Ensure that the filter button updates on click System: Bulletin' Module: Home Page Severity: Workaround
Instructions	<ul style="list-style-type: none"> • User clicks 'collected' filter button
Expected Result	<ul style="list-style-type: none"> • The 'collected' button should change

	to indicate its checked status
--	--------------------------------

Identification and Classification	Test Case 30 - User hasn't collected any flyers System: Bulletin' Module: Home Page Severity: Workaround
Instructions	<ul style="list-style-type: none"> • User clicks 'collected' filter button
Expected Result	<ul style="list-style-type: none"> • If no flyers are collected by the user, tell the user that they don't have any collected flyers

Identification and Classification	Test Case 31 - Ensure that user can flag flyers System: Bulletin' Module: Home Page Severity: Critical
Instructions	<ul style="list-style-type: none"> • User flags inappropriate flyer
Expected Result	<ul style="list-style-type: none"> • Flyer is marked as flagged flyer

Identification and Classification	Test Case 32 - Multiple reports System: Bulletin' Module: Home Page Severity: Important
Instructions	<ul style="list-style-type: none"> • Multiple users flagged the same flyer
Expected Result	<ul style="list-style-type: none"> • Reported flyer is removed from the

	system
--	--------

Identification and Classification	Test Case 33 - User flags deleted flyer System: Bulletin' Module: Home Page Severity: Important
Instructions	<ul style="list-style-type: none"> • User flags deleted flyer
Expected Result	<ul style="list-style-type: none"> • An alert box pops out stating that selected flyer has been deleted

Identification and Classification	Test Case 34 - Collect button System: Bulletin' Module: Home Page Severity: Critical
Instructions	<ul style="list-style-type: none"> • Click on collect button
Expected Result	<ul style="list-style-type: none"> • Collect button should visually change indicating that the button has been pressed

Identification and Classification	Test Case 35 - Collect button System: Bulletin' Module: Home Page Severity: important
Instructions	<ul style="list-style-type: none"> • Click on collect button • Filter "collected" flyers

Expected Result	<ul style="list-style-type: none"> System should only display collected flyers
------------------------	---

Identification and Classification	Test Case 36 - Collect broken link System: Bulletin' Module: Home Page Severity: workaround
Instructions	<ul style="list-style-type: none"> User collects a flyer that has been deleted
Expected Result	<ul style="list-style-type: none"> An alert box pops out stating that selected flyer has been deleted

Identification and Classification	Test Case 37 - Password Changed Correctly System: Bulletin' Module: Manage Account Page Severity: Critical
Instructions	<ul style="list-style-type: none"> User changes password
Expected Result	<ul style="list-style-type: none"> User no longer is able to login with the old password, only the new one

Identification and Classification	Test Case 38 - Invalid Password Change System: Bulletin' Module: Manage Account Page Severity: Critical
Instructions	<ul style="list-style-type: none"> User inputs new password that does not follow password requirements

Expected Result	<ul style="list-style-type: none"> Alert box pops up telling user of password requirements New Password Input label becomes red
------------------------	---

Identification and Classification	Test Case 39 - Invalid Old Password Input System: Bulletin' Module: Manage Account Page Severity: Critical
Instructions	<ul style="list-style-type: none"> User inputs the incorrect input for the "Old Password" input
Expected Result	<ul style="list-style-type: none"> When user presses confirm, alert box will say "Wrong Old Password" Old Password Input label becomes red

Identification and Classification	Test Case 40 - Ensure the user is able to click on the "remove" icon System: Bulletin' Module: Home Page Severity: Important
Instructions	<ul style="list-style-type: none"> Click on the "delete" icon
Expected Result	<ul style="list-style-type: none"> A pop-up box appears to display a confirmation message.

Identification and Classification	Test Case 41 - Ensure the confirmation button is clickable System: Bulletin' Module: Home Page
--	---

	Severity: Important
Instructions	<ul style="list-style-type: none"> Click on the "Confirm" button
Expected Result	<ul style="list-style-type: none"> The dialog box should disappear.

Identification and Classification	Test Case 42 - Ensure selected flyer is deleted System: Bulletin' Module: Home Page Severity: Important
Instructions	<ul style="list-style-type: none"> Click on the "delete" icon and then the confirmation button
Expected Result	<ul style="list-style-type: none"> System shouldn't display that flyer

Identification and Classification	Test Case 43 - Ensuring selected flyer is deletes after the user's confirmation. System: Bulletin' Module: Home Page Severity: Workaround
Instructions	<ul style="list-style-type: none"> Click on the "delete" icon and then the "cancel" button
Expected Result	<ul style="list-style-type: none"> System shouldn't delete that flyer

Identification and Classification	Test Case 44 - Sends Email of Current Password System: Bulletin'
--	---

	Module: Login Page Severity: Critical
Instructions	<ul style="list-style-type: none"> User enters their email and their current password is sent to their email.
Expected Result	<ul style="list-style-type: none"> User receives email with correct password

Identification and Classification	Test Case 45 - Sends Correct password to Correct User System: Bulletin' Module: Login Page Severity: Critical
Instructions	<ul style="list-style-type: none"> User inputs their email
Expected Result	<ul style="list-style-type: none"> User receives an email in the email account given Password is the valid password matched with the username and password

Identification and Classification	Test Case 46 - Valid Email to Username System: Bulletin' Module: Login Page Severity: Important
Instructions	<ul style="list-style-type: none"> User inputs email to have password sent to
Expected Result	<ul style="list-style-type: none"> If email is matched to current user, email is sent through Otherwise, alert box warning user of wrong/invalid email.
